## PROFESSIONAL SUMMARY

---

I am a Python Full Stack Developer with good knowledge of both front-end and back-end development. I recently completed a **Full Stack Development** course from Ducat, Noida Sector-16, where I learned to build responsive and user-friendly websites using **Python, Django, HTML, CSS, JavaScript, and SQL**.

I enjoy solving problems, learning new things, and creating useful software. I am now looking for a beginner-level software development job where I can start my career and work on real projects. Always willing to contribute to innovation and improvements in technology.

## PROJECTS

---

### Banking Automation Project

- **Tools & Language:** Python, Tkinter (GUI), SQLite, MySQL, VS Code.
- **Description:** Developed a banking software application to handle account creation and management. Implemented functionalities such as opening new accounts, managing user data, and performing basic banking operations. Backend data handled using **MySQL** for efficient storage and retrieval. Built in VS Code with Python. Integrated internet-based features to enhance functionality and user experience.

### Responsive Portfolio Website (Personal Project)

- Designed and developed a personal portfolio website using **HTML, CSS, JavaScript**, and media queries.
- Focused on building responsive layouts for mobile and desktop compatibility..

## SKILLS

---

**Web Development:** HTML, CSS, JavaScript, Python, Django, MySQL

**Frameworks & Tools:** Bootstrap, Tkinter, OpenCV, Razor Pages

**Database:** SQL Server, MySQL, SQLite

**Soft Skills:** Communication, Client Interaction, Documentation, Team Collaboration
